CHESTER WILL PLAY FOR SENIOR BALL

Band Chosen For Final Dance

Betty Bradley To Sing With Band At Statler On Night Of April 27

Bob Chester, "the nation's newest sensation," and his fourteen-piece orchestra have been signed to play at Technology's Senior Ball, according to S. Young Tyree, '42, Chairman of the Senior Week Committee. The Senior Ball, which follows the traditional formal dinner, is to be held on the evening of Monday, April 27, in the Hotel Statler Ballroom.

Although Chester's band has been in existence only since 1935, he has broadcast over all of the major networks, and is well known to dance enthusiasts throughout the nation. In a poll of college students conducted recently, Bob Chester's orchestra was chosen "Number One Prom Band for 1941." Much of his popularity may be attributed to his smooth swing style, his charming songstress, Betty Bradley, and vocalist Bill Darnell.

Senior Week Calendar

The Senior Week program opens on Thursday night, April 23, with the Stag Banquet. The Barn Dance is scheduled for Friday evening, replacing "Tech Night At the Pops,"

(Continued on Page 4)

Dramashop Hits Seasonal Peak

"It's Time We Learned" To Be Given At Peabody Playhouse April 10 — 11

With the production "It's Time We Learned," Dramashop will present its last but most timely performance of the year on Friday and Saturday, April 10th and 11th at the Elizabeth Peabody Playhouse on Charles Street in Boston. The play, written by George Bemberg, authority on Pan-American relations, is designed to bring about a deeper and more accurate understanding of our Latin American neighbors.

"It's Time We Learned," which is woven around the visit of two American college students with a family in South America, compares the differences of thinking and spirit of Latin Americans and North Americans with the intention of expressing some of the misunderstandings which have hindered more mutual Pan-American relations. Further, Bemberg attempts to debunk the disillusionments created by the movies, and fosters the understanding which must be created

Tennis Team Schedule Announced At Rally

At an unusually large rally of tennis enthusiasts last night in room 1-190, Jack Summers, tennis coach announced a challenging schedule. Starting with Boston University, the varsity team will play on opponents territory on April 29th. On May 1st, Rhode Island will invade home grounds, followed by a game with Lowell Textile on May 4th, away. On May 6th, the team will travel to Tufts, and on May 13th to Worcester Polytech. Harvard will be met on May 15th. There are possibilities of a meet with Dartmouth or Bowdoin later in the season.

(Continued on Page 4)

Tech Glee Club To Participate In Nation-wide Choral Contest

Course VI Switchboard On Dorm Phone System

The dial switchboard of the Department of Electrical Engineering has been connected with the switchboard in the undergraduate dormitories now making connections possible between the dial phones in the department and any of the dormitory room telephones.

Members of the staff and students in electrical engineering department now have a new channel of direct communication. Students living in the undergraduate dormitories may connect with any phone in the electrical engineering department by giving the dormitory operator the name of the person or laboratory which they wish to reach.

Gridiron Society Elects New Men From Publications

Men Will Be Admitted At Initiation Banquet To Be Held On Tuesday

At the last meeting of Gridiron honorary publications society, 13 men were elected to membership. These men have been chosen from the various publications staffs after nomination by the respective managing boards. They will be formally initiated at the Initiation Banquet to be held next Tuesday, March 24. There will be a meeting of the initiates today at 5:00 in Room 5-180.

All the initiates are Sophomores with the exception of Stewart Rowe '43, Editor-in-Chief of Vu magazine. The other man selected from the Vu staff is William G. deHart. The other initiates are as follows: from the Tech are James E. Gallivan, Bernard Rabinowitz, Arnold Mackintosh, Mortimer W. Meyer, and Harry W. Turner; from T.E.N. are Paul Heilman, J. Thomas Lawson, and Lee C. Eagleton; from Voo Doo are Carl C. Roden Jr., Gerald Dennehy, and Jasper D. Ward.

Collective Security Subject Of Forum

Following a series of questions to inaugurate the discussion, the third Post-War Reconstruction Forum met at 5:00 P.M., Wednesday in Litchfield Lounge. Twenty students representing many varied interests and opinions discussed the question of "Collective Security" under the chairmanship of Richard J. Zeamer, '43.

Professor Theodore Smith, adviser to the group, Mr. Duncan S. Ballantine, and Mr. George de Santillana, all of the department of English, participated in the discussions together with the students. Since the subject was not exhausted in this meeting, "Collective Security" will also be the discussion topic for next Wednesday's meeting in Litchfield Lounge.

Zeamer was elected as the forum's representative to an International Students' Service conference. Charles W. Thomson, '43, was chosen chairman for the next meeting.

Fred Waring Will Choose Best College Organization

The M.I.T. Glee Club has been invited to enter a nation wide contest conducted by Fred Waring, to determine which is the best college Glee Club. The date for the recording of the songs to be sent to Fred Waring has been set as Sunday, March 29. Each club is to sing one sweet song, one in unison, and one to demonstrate musical technique.

Under the contest plan the country is divided into regions with 150 colleges entered in all. After the representatives from each region are chosen, the final competition will be run in New York. All regional winners are invited to spend some time in New York, all expenses paid, and are to be "shown the town". The grand winner will sing with Fred Waring and, needless to say, will receive a great amount of publicity. The Institute singers have gone "all out" in an effort to represent this region in the contest in New York.

Remaining Concerts

The Glee Club will make its first long trip of the year when the members leave for Maine at noon tomorrow from Walker Memorial, a concert having been scheduled between our group and the Glee Club of the Westbrook School for

(Continued on Page 4)

Vu To Appear Tuesday, March 24, Not Thursday

With the Boston Telephone system the unintelligible communicator of sound that it is, Vu's poster made the sad mistake of announcing publication date as Thursday, March 24. Tuesday is the day, gentlemen, Tuesday is March 24 and Tuesday is Vu day. Don't miss the sales desk on Tuesday morning for the best Vu yet.

Marshard To Offer Variety Of Styles And Stars At I.F.C. Dance Next Friday

Society's favorite band—Harry Marshard and his twenty-five piece orchestra—claims flexibility as the keynote to its success in winning approval from dancers of every walk of life. In an interview with The Tech concerning the I.F.C. dance at the Hotel Statler next Friday night, Marshard stated that while he was primarily set to provide sweet music in the Battle of Music with Donahue, his band was prepared to give out any type of music that seemed to fit the mood of the party-goers. He pointed out that the size of his orchestra and the type of arrangements he used made it possible to run the gauntlet of musical variations with ease.

In addition to his musical arrangements, Marshard features several novelty entertainers. Maurie Selnick struts his stuff on the bandstand with his imitations of Jerry Colonna, Bonnie Baker and other stars. Another star on the Marshard bill is Billy Doolie, who has stolen many a show with his specialty acts as the comedian drummer. To complete the program that Marshard plans for the I.F.C. party, Gil Phelan will be on hand to hold up the vocal end of

Debating Club Again Sponsors Election Forum For Candidates

An election forum, similar to the one held last year, is to be sponsored by the Debating Society at 5:00 P.M., on Monday, in room 10-250. There will be speeches of not more than five minutes duration by all the presidential nominees of the three classes. After this, there will be questions by the audience in order to assure complete understanding between the candidates and the audience.

In charge of the forum is Leavitt J. Pope, '45. Ward J. Haas, '43, is to be the chairman of the meeting and will conduct the program and introduce the speakers. Those who are to speak are: for the Junior class, Sid F. Atlas, '43, Samuel R. Childerhouse, '43, and John W. McDonough, Jr., '43; for the Sophomore class, Frank E. Carroll, '44, Malcolm G. Kispert, '44, George A. Schutte, '44, Caleb S. Taft, '44, and John A. White, '44; For the freshman, John F. Burke, '45; and John L. Hull, '45.

In order to get the most benefit out of the elections, it is urged that all who wish to vote be on hand. The speeches may be the deciding factor, since they will probably deal with the candidate's aims and ideas in the execution of his office.

John G. McMullin Elected Metallurgical Society Head

John G. McMullin, '43 was elected as the new president of the M.I.T. Metallurgical Society at a meeting held last Wednesday afternoon, March 18, at 5:00 P.M. in Room 8-205, to elect officers for the coming year.

Other officers elected include George Freedman, '43 as Vice-president and Robert Meier, '44, who completes the list of officers in the capacity of Secretary.

Magoun Delivers Marriage Lecture

Undergraduates Will Poll Soon

Seniors, Juniors, And Sophomores To Vote March 25

The complete list of nominees for class officers, Institute Committee representatives, and Beaver Key Society members was released by the Elections Committee last night. Election day is to be Wednesday, March 25, and the polls, in the main lobby of Building 10, will be open from 9:00 A.M. until 5:00 P.M.

The elections are to be run using the preferential ballot. In this system each voter is to put a number beside the name of each candidate for office according to the voter's preference. X's are not sufficient, and ballots with only X's will be discarded.

Pictures Requested

Each candidate is requested, but not required, to submit a picture of himself along with a list of his activities and his ratings. Each list and picture should be of suitable size to be posted near the polls.

Nominated for the office of permanent president of the Class

(Continued on Page 4)

Magoun Delivers Marriage Lecture

First Of Spring Series Discusses Adjustments Made During Honeymoon

The first of the spring series of T.C.A. sponsored lectures entitled, "In Preparation For Marriage" was delivered at 4:00 P.M. and again at 5:00 P.M. last Tuesday afternoon to a capacity audience of Technology students gathered in Huntington Hall.

This talk dealt with the first step taken after the marriage ceremony is performed, the honeymoon. Professor Magoun likened the honeymoon to other transitory stages in the life of an individual, and said that the adjustments made on the honeymoon were similar to those made when going from boyhood to manhood, from high school to college, and from college to life in the world.

The speaker also said that many

(Continued on Page 4)

E. E. Bull Session Dinner Proves To Be Successful

The Electrical Engineering department bull session dinner held last Tuesday, March 17, was a great success, according to Robert I. Kraus, '42. It was the first thing of its kind ever attempted by the department, and every effort will be made to sponsor more similar affairs, so that the students and the professors can get together.

The attendance was in the neighborhood of 110 students, including 15 staff members. Informality was the keynote of the affair, and everybody leaving Pritchett Hall was apparently in a gay mood, said Kraus. The dinner gave the students a chance to sit with their favorite professors and discuss informally various problems and subjects.

GROUND FOR A SOFTBALL TOURNAMENT

The Beaver Key Society, sponsor of Technology's intramural athletics, has experienced some difficulty in making arrangements for the annual softball tournament. War activities in the vicinity of the Institute have deprived Technology students of the use of many athletic facilities, among them the playing fields which usually accommodate the softball games. Consequently, Beaver Key is faced with the problem of securing softball diamonds near enough to Technology's living quarters to insure a satisfactory turnout of players and the subsequent success of the tournament.

Obviously near at hand and perfectly suited to transformation into two softball fields is the plot of ground between Walker Memorial, the dormitory parking lot and the Institute. The only objections we can see to such a transformation are the destruction of the grass occupying this ground and the possible breakage of surrounding windows, which probably account for the present exclusion of students from the ground in question. The welfare of the grass can be of very little significance because that grass is to be used as a drill field for R.O.T.C. outdoor drill beginning April 6.

The big handicap, then, appears to be the danger to which Institute and dormitory windows will be subjected when Technology softball teams cavort in that area. The diamonds can be situated, however, so that foul balls and long flies will land in harmless territory and so that window breakage will be kept at a minimum. In any event, Beaver Key and Institute officials should be able to work out a plan whereby funds for any windows which are broken will be provided by either Beaver Key, the Institute, or both.

Use of the ground between Walker Memorial, the dormitory parking lot and the Institute should be granted to Beaver Key to facilitate the playing of the regular softball tournament before the Seniors graduate and to provide fields for tournaments among the Juniors who will be at school throughout the summer.

ATTEND THE ELECTIONS FORUM

The announcement of nominees for the class offices of the three undergraduate classes in today's The Tech should bring to the minds of Technology students the problem they will face on election day: that of selecting for their class officers the men best fitted for the positions.

Too often in past years, students have been advised by the leaders of their residential group as to how to vote in the class elections. Such a situation has led to the election of men who have the largest, best organized group of fellow residents supporting them rather than those candidates who, because of their personal qualifications, would make the best officers. Under these circumstances, students go to the polls and cast their votes for a name, not a man.

The student can contribute effectively to the correction of this condition by carefully considering each nominee for each office before voting. He should consider the man's personal qualifications, his past record, and the program which the man will follow if he is elected. The easiest way for the student to gain information concerning these details is to attend the elections forum which the Debating Society is sponsoring next Monday at 5:00 P.M. Attendance at this gathering will enable the student to view the candidates at first hand, to see how they speak and put across their points before a crowd, and to hear their policies and their promises.

The Reader Speaks

March 19, 1942

Editor, The Tech:

How about the barn dance which is scheduled as one of the Senior Week Events; are the majority of the men holding blanket tickets in favor of such an activity? As a result of talking with men in the Senior House, in particular, and others around the campus, we are of the opinion that the Seniors who really want a barn dance as part of the Senior Week Events are definitely a minority group.

In cold figures it looks this way: The total price of admission to everything taken separately is

Dean Pitre Holds Difficult Post as Freshman Advisor

Charged with the responsibility of being program advisor to more than six hundred freshmen, Dean Thomas Palm Pitre has, during the past twelve years, been solving the individual important problems of all those first year students who have come to him for help. Such a task has not always been an easy one, but Dean Pitre has always cherished the responsibility of being a one man advisory board to Technology students.

With a full schedule the year 'round Dean Pitre has little time for any particular hobby or form

Dean Thomas P. Pitre of recreation. However, he does enjoy spending with his family those few respite from work at Technology he receives. In the spring and during the summer months he can often be seen mowing the lawn of his home in Arlington. Another of his favorite relaxations is reading, an occupation which he pursues extensively.

Year Round Job

An administrative position, Dean Pitre says, is a year 'round affair. The Associate Dean of Students teaches freshman chemistry during the fall term besides his administrative duties. The spring term is filled with interviewing prospective scholarship applicants and with discussing individual scholastic problems with students and their families. Even the summer months are taken up with the large scholarship program of the Institute and with the task of interviewing prospective freshmen.

Meeting all sorts of persons—everyone with his own peculiar personality and problems, — each differing from the other, yet all with some common denominator, is a constant source of enjoyment to Dean Pitre. He possesses an uncanny elephantine memory, and often amazes his visitors by calling by name students who believed they are nonentities in the Dean's mind.

Graduate of Amherst

Thomas P. Pitre was born in Waterbury, Conn. and received his early schooling there. He was graduated from Amherst College in 1918, cum laude, and then taught at Phillips Andover Academy for a year. A year after his graduation from Amherst he joined the Institute staff as an instructor in chemistry, and in 1930 he was appointed Assistant Dean of Students. In 1939 he was promoted to Associate Dean of Students, the position which he now holds.

\$16.20, the blanket ticket costs \$14.35. This represents a saving of \$1.85. However, any holder of a blanket ticket who does not attend the barn dance will lose \$1.45 because of having purchased a cover all ducat.

As for ourselves, we aren't going to the barn dance, but we have blanket tickets. If the majority of the Class want this affair, all well and good; we take the \$1.45 loss. But let us find out now, before it is too late, what the Class really wants.

Nobody asked what the Class wanted as a substitute for the pops concert; but if they had, we would

have suggested a good stage show down town.

Incidentally, when options were first put on sale, the barn dance had not been announced as one of the Senior Week Events. See page 4 of "The Tech" for November 25, 1941.

For years, telephone cable has been hung by stiff wire rings from its supporting strand. But repeated expansion and contraction caused by temperature changes sometimes proved too much for even the best cable sheath. Fatigue cracks developed near the poles — this meant leaks — possible service interruptions — expensive repairs.

Recently, men of the Bell System developed a machine that lashes the cable and strand together in such a way that the concentration of strains near the poles is minimized. The Cable Lasher has also proved a great aid in the speedy installation of some of the new cables needed for airfields, camps, bases and war factories.

There are many opportunities in the Bell System for men with the urge — and the ability — to do a job better than it has ever been done before.

Many Lose Out In Early Trials Of Swim Meet

Relay Trials Today; Finalists Will Start At 2:30 P.M. Sunday

With a large turnout and good competition the annual All-Tech Swim trial program started last night in the Alumni Pool. Approximately sixty fraternity representatives and several independent or dorm swimmers competed in the 50-yard dashes.

J. S. Stoutenburgh, S.A.E., led both the free-style and backstroke events in very fast time, 25.8 s in the first and 32.7 s in the latter. Gene Brady, representing Theta Xi, took second position in the free-style in his annual appearance in the pool. Brady is captain of Track and as such has not practiced swimming.

In the breaststroke the Deke's

came through with Albert Cobb, who splashed home with an easy time of 31.9 seconds.

Disqualifications Frequent

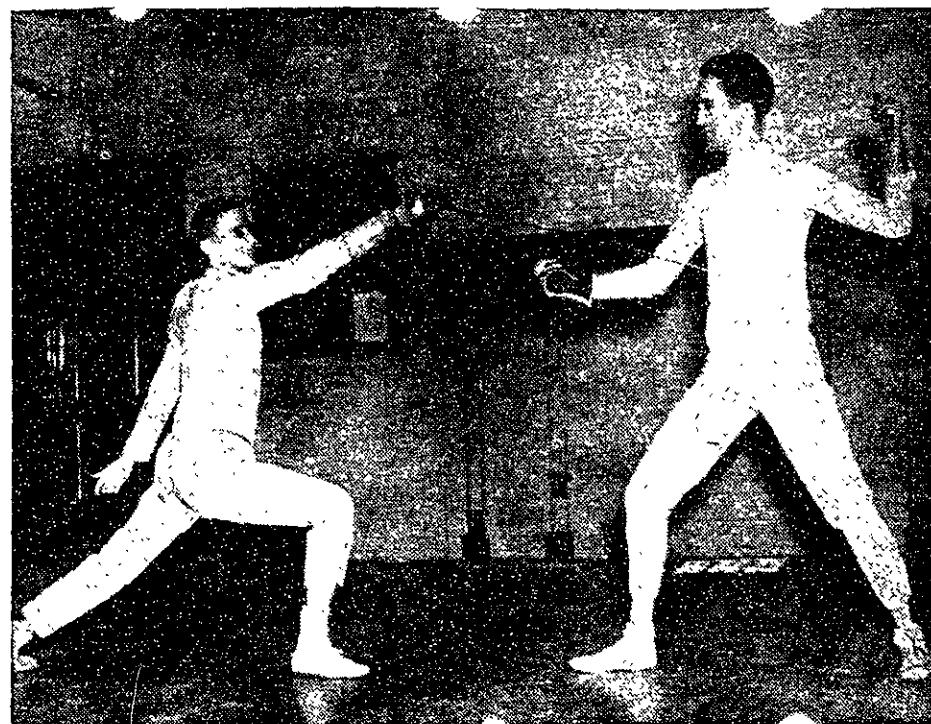

The competition was marred by frequent disqualifications as numeral winners were discovered among the contestants. Any student expecting to enter the relay eliminations tomorrow afternoon must make sure that he has never won a letter or numerals, or has never entered freshman or varsity meets.

The contestants in the dashes Sunday, at 2:30, will be: Free-style: Stoutenburgh, S.A.E.; Brady, Theta Chi; Cobb, Dekes; Berude, Commuters; Jevon, Chi Phi; Pastoriza, Phi Gams. Alternates: Chubb, Chi Phi; Fletcher, Sigma Chi.

Breaststroke: Cobb, Dekes; Gunther, Delta Tau Delta; Rosenberg, Doms; Schlegel, Sigma Chi; Kingsberry, D.U.; Beecher, Phi Delta Theta; Alternates: Sherman, Delta Tau Delta; Bent, D.U.

Backstroke: Stoutenburgh, S.A.E.; Wingate, Beta Theta Pi; Bourne, Delta Tau Delta; Beecher, Phi Delta Theta; Weaver, Phi Gamma Delta; Hoehn, Phi Kappa; Alternates: Chubb, Chi Phi; Neff, S.A.E.

STEEL MEETS STEEL

Bill Kellogg and John Hinchman, co-captains of the fencing team show their swordsmanship. Today they are fencing at New York in the Intercollegiates with the rest of the fencing team.

Fencers Travel To Final Match Season Concludes With Intercollegiate Meet At New York City

Carrying with them a string of victories, the fencing team has traveled to New York to enter the Intercollegiates which are being held this weekend. The team will probably meet Harvard, which it has already vanquished, and will also meet representatives from other colleges prominent throughout the nation.

The team which seized the Intercollegiates Epee Cup in the earlier matches at Yale late in February, is looking forward to adding more cups to those they now hold. Among the swordsters are the co-captains, Bill Kellogg and John Hinchman. The other representatives are: Dick Ackerman, Paul Colsmann, Richard Braendle in the foils events; Robert Kratz, who will aid the captains in the epee bouts; and Steve Higgins and Arnold Fields supporting the sabre division.

Riflemen Oppose U.S. Coast Guard And Northeastern

The schedule of the Rifle team has been changed for the weekend. The match with United States Coast Guard Academy has been changed, due to war conditions, from a shoulder to shoulder match to a pistol meet. As usual, all men will shoot, but the five top scores constitute Technology's bid for victory. All targets will be in by Saturday, March 21.

On Saturday the Northeastern University Rifle team will be here to shoot against our ten-man team. Technology's rifle team has had an unusual season, its schedule seriously disrupted by the war. The "win-lose sheet" is nearly even, but our team has been improving steadily. The mainstays of the team are: Captain Gannon, Garrett, Woodworth, Wood, Terry, Lorence, Adams, Weisenthal, and Harker, who also serves in the capacity of team manager.

Senior A Hoopsters Displace Goodale

In games played last night in the Beaver Key basketball tournament, Senior A beat the 5:15 Club, and Goodale defeated Phi Gamma Delta by a 37 to 27 score. Last Tuesday Sigma Alpha Epsilon beat the 5:15 Club, and Senior A defeated the Goodale team by only one point in a hard fought game. The only other game scheduled is

between Senior A, and the SAE team, and is to be played Sunday.

The standing to date in the round robin is as follows: Senior A, won three, lost none; Goodale, won three, lost one; Sigma Alpha Epsilon, won two, lost one; 5:15 Club, won one, lost three; and Phi Gamma Delta, won none, lost three.

The tourney should be over by Sunday provided the scheduled game is not postponed, in which case it would be scheduled for some later date.

Harry Marshard's Band

(Continued from Page 1)

bring to the I.F.C. has proved extremely popular with society, having played for innumerable debutante parties. It played for the coming-out party of Ambassador Joseph Davies' daughter, in New York, and for a party given by Edsel Ford in Detroit. Marshard has appeared at the Harvard Freshman Jubilee and the Harvard Military Ball as well as the Technology I.F.C. three years ago.

Service Parties

Eager to help war morale, Marshard claims the distinction of having played for more army and navy parties than any other New England band. This Sunday he is to play for a mammoth navy ball at Quincy and will take part in the first major dance staged by the Coast Guard in years. During the recent United War Fund drive, Marshard headed the music and entertainment section and saw collections made in this field soar one hundred per cent above last year's quota.

In closing his interview with The Tech, Marshard asserted that "we will do all in our power to cooperate with the I.F.C. dance committee to make this one of the most outstanding parties ever staged at M.I.T."

Dramashop Hits Seasonal Peak
With "It's Time We Learned"

(Continued from Page 1)

in order that we may create in the future a more substantial basis for common hemispheric solidarity.

Dean Fuller Pleased

According to Professor Dean M. Fuller, director in charge of the production, the Dramashop is fortunate to have the opportunity of producing Bemberg's work, and the talent and spirit which the cast have shown indicates that this coming production may be one of Dramashop's best.

The cast will consist of Janet Norris, '42, as Mecha Pinto de Valjeo; Robert L. Lichten, '43, as Felipe Vallejo; Jasper D. Ward, '45, as Larry Foster, one of the Americans, with Dick Hubbard, the other, played by Harold A. Miller, '44. Dramashop's gifts from Course IV, Mildred B. Edwardson and Frieda

Marriage Lecture

(Continued from Page 1)

marriages have been ruined before they began because the young couple refused to allow themselves to become adjusted to the new conditions of their lives. They made no attempt to meet each other half way emotionally, spiritually and intellectually. He stressed the necessity of the correct adjustment of the two individuals in order for them to become a truly united couple.

Professor Magoun gave three elements necessary to a successful transition, the willingness to make it, the ability to make it, and the initial success. "Should a person's first attempt to swim result in his near drowning, that person will no doubt refrain from any future swimming," Magoun said. It is only after some measure of success has been attained that a failure can be endured.

The next lecture in the post-marriage series is to be held on Tuesday, March 24, and will deal with the emotional adjustments necessary to begin a happy marriage.

Omansky, both '46, play Carmen and Teresa Vallejo respectively.

James B. Weaver, '44, and Richard Bersohn, '44, play Benjamin and Pepe Vallejo respectively. Marian H. Ferris, '45, plays Chicha Bernal, with Dorothy I. McKernan, '44, plays Carolina Pinte. Tio Manuel and Jaime Tierra are played by William E. Katz, '45, and Jorge Ross, '43, respectively. Other characters are Nelida, played by Rosemary J. Burghoff, '44, and a policeman with Jack L. Uretsky, '45.

Guest Artists

For the first time in the history of Dramashop, announced Professor Fuller, the organization has been forced to include two students from other schools. This is due to the preponderance of co-ed parts in the production. The co-eds, whose names were not announced, are from Katherine Gibbs and will play Tia Marta and Tia Cristina.
